

# Slaughtergarden Suite

Sigh

Serenity in a moonshine, blood red, celebration for the dead

Die at my slaughtergarden, My eyes won't succumb to your filthy lies  
Die at my slaughtergarden, Bred in hate, full of drive to destroy

[Guitar solo by shinichi]

Sign of death with a heavy breath, monstrous visions, far beyond your imagination

Die at my slaughtergarden, My eyes won't succumb to your filthy lies  
Die at my slaughtergarden, Bred in hate, full of drive to destroy

(Facing) absolute violence, Abominable sentence  
Personal vengeance, beyond my tolerance  
Accidental genocide, sacrifice my pride  
Collision inside, destiny I divide  
Never forewarned, Insanity's born  
Darkened thorns, reason to be torn  
I'll just let them know (4x)

[Scene II: The Dead Are Born]

Existence cursed, abominable fate  
Distorted lust armed with hate  
Frozen emotions uncontrolled and caged  
Vengeance rising in a deformed rage

Call me whatever you want  
Cruel monster with a bloody hunger  
Inhumane demon from beyond  
(You'll) lie in a coffin six feet under

Vengeance to the world full of lies  
Through the pain the victims suffer from  
No mercy given to the chosen sacrifice  
No love given as the beast (asleep) rises

Through the torture I will give  
Through the pain, the reason to live  
The dead are born against the light  
The dead are born  
The dead are born, to nobody  
The dead are born, at night so bloody  
The dead are born, through the pain  
The dead are born, to live again

[Scene III: Destiny Divided]

[Instrumental]

Die at my slaughtergarden, Say good-bye to your filth life  
Die at my slaughtergarden, Vengeance to the world full of lives  
Die at my slaughtergarden, Say good-bye to your filthy life  
Die at my slaughtergarden, God is denied when my victim dies
