Silence 4

She doesn't know how much she helped me to grow
And the words are lost in my mouth
She taught me to look inside myself and she
Doesn't know how much I hurt myself
She and me
Me and she
We aren't we anymore
She and me we don't talk much it's true
We just don't talk that isn't new
She doesn't know how happy she makes me when she
Talks to me I fly away
She and me
Me and she
We aren't we anymore
