

## We

## Silence 4

She doesn't know how much she helped me to grow  
And the words are lost in my mouth  
She taught me to look inside myself and she  
Doesn't know how much I hurt myself  
She and me  
Me and she  
We aren't we anymore  
She and me we don't talk much it's true  
We just don't talk that isn't new  
She doesn't know how happy she makes me when she  
Talks to me I fly away  
She and me  
Me and she  
We aren't we anymore
