

Anywhere Tonight

Silent Circle

I can't forget the day you left me,
Nights of love, the nights of fear
You made me feel I'm your desire
Could I feel this flame again?

Anywhere tonight
Walking side by side
I wanna hear your voice,
I wanna see your eyes
Anywhere tonight (night-tonight)
Walking side by side (side by side)
I wanna feel your breath,
Hold me tonight

My days are turning into darkness,
I lost the chance, I lost my dreams
In empty streets I walk to find you
Only the wind can hear my cry

You set my heart on fire,
You are my own desire,
I wanna see your eyes,
Hold me tonight
