Anywhere Tonight

Silent Circle

I can't forget the day you left me, Nights of love, the nights of fear You made me feel I'm your desire Could I feel this flame again?

Anywhere tonight
Walking side by side
I wanna hear your voice,
I wanna see your eyes
Anywhere tonight (night-tonight)
Walking side by side (side by side)
I wanna feel your breath,
Hold me tonight

My days are turning into darkness, I lost the chance, I lost my dreams In empty streets I walk to find you Only the wind can hear my cry

You set my heart on fire, You are my own desire, I wanna see your eyes, Hold me tonight
