

## Wrath

### Silent Civilian

Fell on deaf ears  
Sacrificed someone else's freedom to be heard  
Destroy, careless  
For the greed of a child baring one man's name  
Holding on to what they said  
Creates a path to our destruction  
Breathing life into what's dead

Ignore the wrath of our dysfunction  
Tortured victim  
Circumstance of the system downfall  
There's no hope  
Constant regret  
Of the trust I invested became a tragic loss  
Wrath in our lives
