

# Blind Leading The Blind

Silent Force

He sees the two in the corner, not easy to explain  
What the other is thinking, you know it's always in vein

Don't you know that when the other wrong  
Someone always tells them so

And that it doesn't matter  
What they're trying to say

The blind leading the blind  
No wonder nothing else gets done  
They're in each other's way

They always seem to be leaders a political mess  
When all the votes have been counted  
Oh, there's one that's thumping his chest

Don't you know the winner walks away  
The loser somehow gets to play

The blind leading the blind  
No wonder nothing else gets done  
They're in each other's way  
The blind leading the blind  
It's a reason there's so many dead  
They're dying everyday

We all stand here, opinions in our minds  
They're tying up our hands and cover up our eyes  
We shake our heads dismayed when they play that song  
Then they drape the flag upon the caskets when they fall

It's no wonder nothing else gets done  
They're in each other's  
In each other's way!
