

## When It Rains

### Silent Screams

When it rains, it fucking pours  
And as far as I can see, there is no sun

This is no way to live,  
This is not what I call a life  
But I'll keep climbing until I see the sun  
This is no way to live,  
This is not what i call home,  
But I'll keep climbing until I see the sun

I did this to myself,  
And I'll never know,  
I have nothing left

I did this to myself

Another day goes by,  
But I'll keep climbing until I see the sun  
Until I see myself, until I find myself

I count the days that we spent,  
You changed my life forever and I'll never forget

Waiting for better days,  
Im waiting for better days

I'll still savour these days,  
And I'll never forget,  
I'll still savour these days

When it rains

(Im waiting for better days)
