I Bleed For...

Silentium

Contemptio in nomen tuum Incendere in infernus

Dance for me your last Before I wither and die Your shivering lips to me It's for you I bleed

Cover me with beauty
As I carry my chains
I'm drowning in your cruelty
But lust rips my veins

Symphonia carnalis (bella et permunt hostilia) In tenebrae aeternum (pulcher sicut tua)

Kiss away my tears
And I'll suffocate you
Awoke my fears
It's for you I bleed...

Hold this beast in thine arms - For christ Don't fear my wounds and scars - I shall suffer If wounded by a thousand swords - For you It's still you I bleed for - I shall bleed
