## **Serpentized**

## Silentium

Slip under my skin and strangle me Rip open my writsts and set me free Seed of the serpent feeds upon me It eats in us all unless we become thee

Pour poison in my veins and I'll still be breathing Impure with your sin that I'll be feasting Driven and drowned by your strenght eluding I'll wallow in your cruel caress I'm desiring

Wipe away our fear Pour your strength in me

Slip under my skin and poison me Sweet drop of your bane is slowly bemusing Venomizing the earth, I'll be joining with Thee Elude and reign, fill the earth, we are breeding

I'll slip under your skin and strangle you We'll be crowned to the world, join us now you weak fool

We'll be here beyond end we strong, brave and few So let me into your veins, let me join in you

The sun of heaven forsaken and weak
Too feeble to met all your evil and bleak
Crest of light, I have lost, bloody spoil to knee deep
Wipe away all the fear and all the weakness in me

Let the world as we know, purify from it's filth With poisonous teeth all the earth we shall sweep Take this power of mine and we'll be shedding our skins The forbidden fruit tasting sweet from your lips

Wipe away our fear Pour your strength in me

Kiss me and you'll be serpentized Kiss me, sweetheart, close your eyes Kiss me, you shall be my bride Kiss me and let me hyptonize

I am the tickle in your spine I am the perversion of mind I am the first and the last I am the pain and the lust
