

Girl U For Me

Silk

Just ask and I'll do, I'll do it for you
There'll be no more games that we'll play

Tonight is the night and the moon is right
Baby let me tell you, I'm in love with you tonight
The more love we make and the more love we take
Baby let me tell you, I won't let you get away

And girl U for me and girl me for U
I don't care what people might say
And just ask and I'll do, I'll do it for you
There'll be no more games that we play

The night that we met is the night I won't forget
How you touched my heart and you made me realize
I knew you were the one, now after all was said and done
Baby can I tell you, that I want you by my side

Girl U for me and girl me for U
I don't care what people might say
Just ask and I'll do, I'll do it for you
There'll be no more games that we play

Girl U for me and girl me for U
I don't care what people might say
Just ask and I'll do, I'll do it for you
There'll be no more games that we play

Girl U for me and girl me for U
I don't care what people might say
Just ask and I'll do, I'll do it for you
There'll be no more games that we play
