Just tryin' to get paid It wouldn't seem like a jail Put some rose on Dante's grave

Uuuuuuuuuhhhh Me and you together had plans on making the day, having cash As time passed tryin' to make it all last You know we struggle Hope we can see better days And the time different dreamers is to go our seperate ways See you was always good I was always bad You was always in school I was always to cuttin' class Cheatin' on my tests knowin' I wouldn't pass Told me slow down nigga I was movin' too fast They always told me ? I wish you well one day If you could be spent up, shot at, get me out of jail some day Yah, I was told to be like you And at times I tried Realized the only way I can beat these streets The only way I knew to survive I remember comin' home high and drunk Smellin' just like a alcoholic Tryin' to sneak you in They damn near caught us We be down to rock the block party's all night Even thought we clown, we be down to fight, all night Hangin' with the big homies Askin' what they hittin' fo' I remember stealin' junk food out the neighborhood liquor sto' Sittin' back remeniscin' on all the things we had Even thought it was rough, it never seemed so bad Our destiny, we can't shape I know we made mistakes Even thought i wonder why He took you I can't question fate I quess it was written But check it out You still hear cuz you gon' live through me, C, and Silkk Me and you I always thought we'd be together I shoulda' known nuttin' last forever And see I, destiny, we can't shape it Even thought I wonder why we die I can't question fate Me and you I always thought we'd be together I shoulda' known nuttin' last forever And somehow I always thought you'd be there Get a deg on the mark, it's cold, but it's fair See man, right now I just gotta watch my step No matter how many homies I lose I can't get used to death I remember us 5, runnin' wild

(No reason you gon' die) Gimme for thinkin' that You were my brother I'd pay millions to know I was safe A million to bring ya back Y'all my family, as well as my friends And if I had to bring ya back that mean I havta lose ya again Your memory's gonna live on even though ya' gon' I'm sittin hear contemplating where it all went wrong We had an argument, I said some things I shouldn'ta said Never got a chance to apologize when you didn't come home that day I'm thinkin' about memories every time I lay down I wish I woulda known I woulda apologized But i guess I gotta say it now So I see you when I get there But for now I'ma pour out liquor 'Til i'm up there wishin'

And if this song don't hit home Picture the person you love the most And, you wake up, they be gone

Damn, Kevin Miller
See you when I get there fool
'Til then you gon' live on thru us
Huh, we riders baby, you know that
Down to handle our business
Silkk can handle his business
We 'bout it 'bout it, rowdy rowdy
Love nigga
