

## Pop Song for Us Rejects

Silverchair

Addiction's held you back  
But you don't care  
'Cause you're on a high again  
And it's not fair  
Consuming alcohol  
While I gotta drive  
Take a hit from the drugs you stole  
And try to survive

Since your life was over  
You haven't yet been sober  
You have held me back so long  
Everything you do is wrong

Now I gotta dump you  
Continue my life too  
I tried to help you  
Don't care what you do

You're state of mind's improved  
But we're still apart  
I visited you'd moved  
Don't know where to start  
Your life's an open cold sore  
Got to get out the cream  
Now I'm thinking positive  
But I know it's a dream

You died yesterday
