

We're burning down to ashes the places we have been  
We use our raging power for changing everything  
We can rule the world, together we are strong  
Yes, we will build a future to which we belong  
Now in this time of endless crime  
it's up to us to fight for our rights!  
Now we are here to break the law  
Let's start a revolution  
Leave the bad days behind  
Create another world  
Now we were born  
to free ourselves,  
to start that revolution  
Let the riot begin  
to start a better world for us all  
Tormented by starvation, being jogged just every day  
We need a change of power to stop the decay  
An empire full of bloodshed has now come to an end  
Let's fight for our freedom, let's start to defend  
Now can't you see? We're no minority  
It's up to you to fight for your rights!  
Now we are here to break the law  
Let's start a revolution  
Leave the bad days behind  
Create another world  
Now we were born  
to set us free,  
to start that revolution  
Let the riot begin  
to start a better world for us all
