

## Ready to Rock

Silverlane

We came out of darkness into the light  
We keep on fulfilling the prophecy  
Signs and miracles, divine orders showed us the way  
For us to find each other on a misery day

We got the aura to enchant them  
We are the masters of the night

Get ready to rock  
Come on and take that feeling and keep it alive  
Get ready to rock  
So many bad days we had to survive  
Get ready to rock  
Crowds are screaming, lights are shining bright  
Get ready to rock  
We are the gods of the holy night  
Get ready to rock!

Look at our glory days, they will never end  
Our crowd follows us around the world  
Braving hearts that is one thing you can see  
We altered our direction to a better path

We've changed your mind and made a new one  
We are the masters of the night
