Save the Value from itself!  
(another empty bottle)  
Probably one to accept yourself!  
(and now you cannot swallow)

all your pride  
you fall asleep alone tonight  
one day less until you die!  
(Until you Die!)

One More Time  
You can follow our suspicions  
While you close your eyes and lie  
You and I (eee aye eee aye)  
Will continue to discover that  
were wasting so much time

Sell for Despair save yourself!  
(We know your keeping secrets)  
We know you will come around!  
(Too many, Just a regret)

Deep inside  
You'll fall asleep with it tonight  
Penetrating in your mind!  
(Not Just Tonight!)

One More Time  
You can follow our suspicions  
While you close your eyes and lie  
You and I (eee aye eee aye)  
Will continue to discover that  
were wasting so much time  
(Wasting So Much Time)

Looking back  
All the stupid drama  
That painted my world black  
Holding hands was a gateway drug  
That led to the mess I'm in  
But I won't give up  
I won't lie down  
as you take away my friends  
Don't try to change me now  
Don't start to judge me now  
There's been a hundred lows  
But there's been a million highs  
And now we're wasting so much time.
