## **Amity**

## **Simon Carly**

We were so strong then
We built our house on our love
We had a heart on the hill

Love was so proud then
We lived in the clouds when
The tower was crumbling down
Around us on the hill

Oh, we've got to leave this town together Clean out another house Amity Amity is not too much to ask

We reach to the sky still
In hopes we'd be able
To see the bigger picture later on

But we tumbled down

Jack 'n Jill all around

As the valley swallowed up

All the dreams we had made

Oh, see the lighthouse in the distance On some farther shore

We were so strong then
We built our house on our love
We had a heart on the hill

Love was so proud then
We lived in the clouds when
The tower was crumbling down
Around us on the hill
