

## Forever My Love

Simon Carly

Words of love  
Softly spoken  
Like clouds above  
Drift away  
What shall I say?  
To let you know the way I feel  
Should I cry out loud that love is real?  
Or simply reveal  
Forever my love

Time alone will tell us  
Lovers born in May  
May grow bitter and jealous  
Faded and gray  
What shall I say?  
It's not another lovers game  
It doesn't seem to have a name  
It changes and remains the same  
Forever my love, my love

Yesterday's projection will never really know  
But tomorrow's recollection will surely know  
It was so  
Between us  
Ain't no other way  
Time has seen us  
Day after day  
What shall I say?  
That isn't in the way I act  
That will carry through the years intact  
I'm lookin' forward to lookin' back  
From further in down the track  
Together in fact  
Forever my love, my love
