

## I'd Rather It Was You

Simon Carly

Tonight the sun went down in flames  
And the moon rose up in blue  
Heaven spoke and called my name  
But I'd rather it was you  
I'd rather it was you

[Chorus:]

I'd rather it was you to hold me like the child  
That I never was  
I'd like for you to carry me across  
I'd rather it was you  
Because.....

I'd rather it was you to hold me like the girl  
That I've never been  
I'd like to feel your breath upon my skin  
I'd like to feel it finally beginning....

[Chorus]

One will fit just like a glove  
Two will feel like brand new  
But you are all these things and more  
And I'd rather it was you  
I'd rather it was you
