## Lili Marlene

**Simon Carly** 

Outside the barracks by the corner light Darling I remember how I'd wait for you at night There we'd create a world for two, I'd wait for you The whole night through, was there that you'd whisper tenderly That you loved me, you'd always be Be my Lili Marlene, be my Lili Marlene

I'd give you a rose to show I care, And wind it through your golden hair Then we would say goodnight and part, I'll always keep you in my heart With me Lili Marlene, with me Lili Marlene

My Lili of the lamplight, my own Lili Marlene
