

## So Many People to Love

Simon Carly

They're praying on bended knees  
In their beds and on the dirty streets  
Lights are out on all the Christmas trees  
Feels like everyone's about to freeze, makes me worry  
Everywhere I look someone's counting on me

So many people to love and so little time  
G-g-gotta hurry, big girls and little boys  
Broken hearts and dreams destroyed now  
They need me to make it better  
What's an angel gonna do when she needs some loving too?  
I'm just asking

They're using their money up  
On shiny things no one will ever use  
And the ones without can't buy a pair of shoes  
Nothing gentle in the daily news, makes me worry  
Everywhere I look someone's counting on me

So many people to love and so little time  
G-g-gotta hurry, big girls and little boys  
Broken hearts and dreams destroyed now  
They need me to make it better  
What's an angel gonna do when she needs some loving too?  
I'm just asking

Can't find neighbors who are mending fences  
From the mansions to the Hamptons, to the Central Park benches  
City folk wearing all their armor  
Another St. Nick rings a bell on the corner

So many people to love and so little time  
G-g-gotta hurry, there are big girls and little boys  
Broken hearts and dreams destroyed now  
They need me to make it better  
What's an angel gonna do when she needs some loving too?  
I'm just asking, asking

I'm just asking  
What's an angel gonna do when she needs some loving too?
