

## Somewhere In the Night

Simon Carly

Somewhere in the night chasing shadows around the bend  
Somewhere in the night chasing rainbows that have no end  
In the misty night, you are mine and you hold me fast  
But dreams have a way of calling it a day  
They seldom last, our dreams have past  
But in my lonely flight, I'll keep searching till time is through  
Somewhere in the night till I find you

In the misty light you are mine and you hold me fast  
But dreams have a way of calling it a day  
They seldom last, our dreams have past  
But in my lonely flight, I'll keep searching till time is through  
Somewhere in the night, till I find you
