

## Chip In Your Head

## Simon Curtis

Put a chip in your head  
P-put a chip in your head  
We oughta put a chip in your head

Put a chip in your  
Put a chip in your

Open up your mind up and let me put it in  
 Piece of heaven got you saying R-O-B-O for the win  
 I'm ready to attack even if you got an attitude  
 You love me, I love you back is how I show my gratitude

So many questions, well I'm ready with an answer  
If you're done, I'm the chemo to your cancer  
Maybe, maybe, maybe if you ask me just right  
Baby, baby, baby, then I give it to you all night

[illegible]

Song so catchy, gonna spread like AIDS  
Words so absurd, they're like lyric grenades  
Has a message so I said I'll be the white boy Drake  
Do like him, give everybody [inaudible]

So they took him and they hook him like some big-mouth bass  
First they make the beat drop, then you shake your (sigh)  
Half a million downloads, no, I don't fake  
And the labels still avoid me, what a big mistake

[illegible]

Baby, baby, baby, feel the 123  
I put it in your head like RFID  
Said baby, baby, baby, feel the 123  
I put it in your head like RFID

[illegible]

Put a chip in your head, p-put a chip in your head
