

Everything Can Change

Simon Curtis

Do do do do do do
There's no easy way to figure out
Why everything we planned gets turned around
Nothing accidental, got it down to a "T"
So why do things never end the way you think there gonna be
If all is for sure is that no one knows that don't be too quick
to decide
Cause everything can change when you least expect it
Can't stop what you can't control
Gotta learn how to just let go
Everything can change
No, you can't perfect it
Some things you can't explain
Yeah!
Ooooooooooooooooooooo
Do do do do do do do
Ooooooooooooooooooooo
There's no easy way to plan ahead
Can't wait to get there, but we end up here instead
Anything can happen due to what it does
Somethings turned out much better the way it is with us
If all is for sure is that no one knows that don't be too quick
to decide
Cause everything can change when you least expect it
Can't stop what you can't control
Gotta learn how to just let go
Everything can (oh!) change
No you can't perfect it
Somethings you can't explain
Everything can change when you least expect it
Can't stop what you can't control
Gotta learn how to just let go
Everything (yeaah) can change
No, you can't profect it
Somethings you can't explain
Everything can change (everything can change)
Can't stop what you can't control
Gotta learn how to just let go
Everything can change, everything can change
Somethings you can't explain
Everything can change.
