

Hypnotized

Simon Curtis

Arriving just in time
Who's dying to be mine?
Let me survey the scene
Good fight, now keep it clear
How will this evening go?
Two lips to crack the code
Then now above them all
I hear the silence call

It's a melodic, erotic, hypnotic kind of dance
The way that music controls you and the touch of your hand
Mesmerized by your eyes and the way you move
We can dance all night to this hypnotic groove

So soon she caught my eye
Now lingers up your thighs
To you I gravitate
Can't help but to delay
Keep moving if you dare
Surviving, almost there
That cool that's on your lips
I'll break it with my hips

It's a melodic, erotic, hypnotic kind of dance
The way that music controls you and the touch of your hand
Mesmerized by your eyes and the way you move
We can dance all night to this hypnotic groove

It's your melodic, erotic, hypnotic, hold on me
Captivated by your sexuality
Yeah, don't back up now, feel the rhythm of two
We can go all night to this hypnotic groove

Enchanted now by your eyes
You've got me Hypnotized
Hypnotized
It's a melodic, erotic, hypnotic kind of dance
The way that music controls you and the touch of your hand
Mesmerized by your eyes and the way you move
We can dance all night to this hypnotic groove

(It's your melodic, erotic, hypnotic, hold on me
Captivated by your sexuality
Yeah, don't back up now, feel the rhythm of two)
We can go all night to this hypnotic groove

It's a melodic, erotic
