

Lonely Love Song

Simon Curtis

I hear, that song, and I could still
Picture us
Not sure where we went wrong
Maybe love isnt always enough
I'm missing you, thats all I know
Are we better off this way?
(yeah)
I'm listening to the radio, and I see Your face

What's a lonley love song?
Something sad, but true..yaaa
Words and melodies that keep reminding me of you
What's a lonely love song?
Just a long goodbye
voices on the radio make me wonder where you are...tonight

The love (yeah) was gone (oh)
I tried to convince myself
But I hear (I hear) that song
Ohhh and I'm not doing to well
If I could start all over again
I'd never let you go
Everytime I try to forget
It comes on the radio

What's a lonley love song?
Something sad, but true (ohh no)
Words and melodies that keep reminding Me of you
What's a lonely love song?
It's just a long goodbye
Voices on the radio make me wonder
Where you are...tonight

I try to move on, but I dont know how to
I try to act strong
It's no use
Somethings always there to remind me
A photograph that takes me back
Overcome by all the memories that I Still have
If we just had a second chance

What's a lonley love song?
Something sad but true.
Words and melodies that keep reminding
Me of you
What's a lonely love song?
Just a long goodbye
Voices on the radio make me wonder
Where you are... tonight.
