

## Angel (My Life Began With You)

Simon Webbe

Back in the day before I met you  
It was like the same old song spinning round with no direction  
Lost a dream along the way somewhere, just making do with second best  
Secret yearning unfulfilled  
But it all came alive again, the day you touched my soul

High as an eagle  
I can see clearly now my

Life has begun with you, I'm leaving all my cares behind  
Now I know that you're mine, my one and only angel  
Lost in your beauty, where my dreams came true  
Baby my life has begun with you

It could easily take a lifetime  
To find the one you're looking for, oh yeah  
I'm gonna cherish every moment now that love has come around  
Fire, burning, on and on  
Cos in my eyes you're more than beautiful, and it's your flame  
I'm drawn

You take me higher  
I see tomorrow now my

Life has begun with you, I'm leaving all my cares behind  
Now I know that you're mine, my one and only angel  
Lost in your beauty, where my dreams came true  
Baby my life has begun with you

Now I know where my heart belongs, I'm never looking back, no no  
Nothing compares to the joy that you bring  
I see the beauty outside and the angel within  
oh oh
