

Nothing Without You

Simon Webbe

How long we know one another? (hmm)
First friends now lovers (yeah)
Can you believe it took so long, so long? (girl)
We kept the truth undercover (hmm)
That we were perfect for each other (yeah)
Can you believe it took so long, so long?

Look life is full of light and shade
Sometimes it will get dark
But that's the test to see how strong we are

And we could walk away
I'm not giving up on us
No, not today, baby
You know I'm nothing without you with me
Some arguments can escalate so easily, baby
But I'm nothing without you

You
You
You
But I'm nothing without you

The first time that I saw ya (hmm)
Your friend said don't bother (yeah)
She thought that I would do you wrong, but no, no (girl)
In a short time together (hmm)
It couldn't get any better (yeah)
I know I'll never do you wrong, no, no

Look life is full of light and shade
Sometimes it will get dark
But that's the test to see how strong we are

And we could walk away
I'm not giving up on us
No, not today, baby
You know I'm nothing without you with me
Some arguments can escalate so easily, baby
But I'm nothing without you

You
You
You
But I'm nothing without you

Girl, you're everything I need
You're the place that all roads lead
You're the sweetest melody
That just plays over like
You
You
You

I won't walk away
I'm not giving up on us
No, not today, baby

You know I'm nothing without you with me (no, no)
Some arguments can escalate so easily, baby (Yes they can)
But I'm nothing without you

You (oh)
You
You (oh, baby, baby, baby)
But I'm nothing without you
You (oh no)
You
You
But I'm nothing without you
