

Dolphins

Simple Minds

When they say that
Say it's wise
They say that
Now is the only time
To reach for what remains
To look o'er what's the same

Dolphins swim around
Dolphins drag me down
Drag me down

Say that, it's the truth
There's an oceans
Right in front of you
Dolphins, hit the sound
And when dolphins circle around

If it seems so
Like the world juts in
Those dolphins, drag me down
Drag me down

Say that, say its wise
Say that it' the only vice
Yet you say so what remains?
And look so uncertain

And dolphins look around
And then dolphins drag me down
And when it looks through
The world juts in
Dolphins drag me down
Drag me down
