

# Let the Children Speak

Simple Minds

Time, way out of line  
A whole nation waits outside  
The rhythm of tomorrow  
Dance away their sorrows tonight

Lost, broken and scarred  
Prisoner waits outside  
With his lone heart beating

Let the children, let the children  
Let the children speak  
Let the children, let the children speak

Aims, dangerous games  
Their mother says one false move  
And we all get hurt  
I feel this sense of power  
I feel it every hour tonight

Let's not get lazy tonight  
Things could get crazy 'cause  
One more kick and the door slides open

Let the children, let the children  
Let the children, let the children speak

Let the children, let the children  
Let the children, let the children  
Power to the powerless, strength unto the weak

Let the children, let the children  
Let the children, let the children speak

I'm begging you now, let the children, let the children  
Let the children, let the children  
Power to the powerless, strength unto the weak

Let the children, let the children  
Let the children, let the children speak

Let's not get lazy tonight  
Things could get crazy 'cause  
One more kick and the door cracks open

Let the children, let the children  
Let the children, let the children speak

Let the children, let the children  
Let the children, let the children speak

Let the children, let the children  
Let the children, let the children speak

Power to the powerless, strength unto the weak  
Let the children, let the children  
Let the children, let the children speak

Things could get crazy tonight  
Let's not get lazy 'cause  
One last kick and the door cracks open

Let the children, let the children  
Let the children, let the children speak

I'm begging you now, let the children  
Let the children, let the children  
Let the children
