Simple Minds

You can come inside  
Come into the Naked Eye

My only world falls in again  
I see your face fall in again  
It's so dark  
I don't know your name  
It's so dark  
And I don't know your name

Only mirrors lie only mirrors lie now  
Only mirrors lie only mirrors lie now  
Through the needle's eye  
Through the needle's eye now  
Only mirrors lie  
Lie lie

You can come inside  
Come into the naked eye  
Naked  
Naked

I feel so high  
Going up on the wall  
And you're down below me  
Look all around look all around now  
Look all around look all around now

Only mirrors lie only mirrors lie now  
Only mirrors lie only mirrors lie now  
Through the needle's eye  
Through the needle's eye now  
Only mirrors lie  
Lie lie

You can come inside  
Come into the naked eye  
Naked  
Naked

Just wanted a special view  
Just me and you  
Just just just the two of us  
Just two of us  
Going up on the wall  
Up on the wall  
Going up on the wall  
Up on the wall  
Naked Eye Naked Eye

What do you see  
And what's there to learn  
Reading your books  
Third diagram  
Someone's in the room down below  
Someone someone  
Someone below
