

Daydreaming

Simply Red

I'm a believer yes I am
I do the very best I can
You might say I'm a daydreamer
Do you feel you're a daydreamer

In this world we're living in
Our suffering's a sin
You might say we need a faith healer
Do you pray we need a faith healer
Don't stop me daydreaming
Don't stop me daydreaming
Dreaming of a world where love is strong
Dreaming that the human race goes on and on and on

Dear life lives on

Let's cool it all down if we can
And show the very best of man

Do you feel like a daydreamer
(Yes I do now)

'Cause In this world we're living in
You know that sufferings a sin
You might say we need a faith healer
Do you pray we need a faith healer
Don't stop me daydreaming
Don't stop me daydreaming
Dreaming of a world where love is strong
Dreaming that the human race goes on and on and on

Dear life lives on and on and on and on
