

Each Day

Simply Red

Feeling you more and more each day
As my heart learns to comprehend
I'm devoted to you
And the dreams we have
I wanna be with you, stay with you
Till the end

When he sang he was tangled up in blue
I knew I was born that way
Our future is really down to you
That is if you feel that I behaved

I have fallen for you, anyway
But what's important is that you know
That I need you to stay forever

Each day, each day together
Each day forever

I have fallen for you, anyway
But what's important is that you know
That I need you to stay forever

Each day, each day together
Each day, each day forever
Each day, each day together
Each day, forever
