Right from the start you tried to hurt me But look at you now, behaving like a fool A long time ago you treated me so mean but

Look at you now Look at you now

You threw me away like litter in the gutter
I had to pick myself up and find something better

Look at you now Look at you now

I looked so hard, I'm looking hard now Looking at your head

Don't talk about birthdays, that don't mean a thing to me Don't throw it in my face, it's too sweet to sting

Look at you now Look at you now

I kept on looking hard (2x) Looking at your head. Head!!!
