

Love Gave Me More

Simply Red

(Give me more...)

You came, and you've changed it
I've learned so much too
I've yearned so much for this
And now it's come true
Hearts earn a little happiness, from how you give
I've learned so much with you
I've learned how to live

With a smile like a view on a magic garden
Eyes from the dew of a crystal dawn

How can love give you more
How can love give me more
(Give me more...)
No shame to shout about it
No blame while love's so new
I've turned the volume down
It just hurts without you
Hearts burn with loving passion
Heads turn to look at you
I'm sure, yes very certain
I'll be gazing at you with

With a smile like a view on a mystic garden
Eyes from the dew of a crystal morn
A smile like a view on a wonderful morning
Eyes from the dew of a crystal dawn

How can love give you more
How can love give me more
How can love give you more
How can love give me more

(Give me more...)
Love gave me more, yeah...

(Give me more...)
With a smile like a view on a mystic garden
Eyes from the dew of a crystal dawn
How can love give you more
How can love give me more
How can love give you more
How can love give me more

Love gave me more, yes, it did

More, more, more...

Love gave me more, yeah...
