

## Maybe Someday...

Simply Red

I've been a fool, talking to myself and no-one else  
I play it cool, so cool that no-one ever understands me

Maybe one day someone will come  
Now! Now

I didn't do the things I was supposed to do  
You didn't move, you used me and I used you too

Maybe one day someone will come  
Maybe one day someone will come

Why it's killing you, is a reason for yourself and no-one else  
I couldn't move, you used it and it used you too

Maybe one day someone will come  
Maybe one day someone will come
