

The Ghost of Love

Simply Red

Escape from reality
Love is really off
Forget about mortality
It's coming soon enough
Remember her lips
And tender arms

And don't be afraid
Of the ghost of love
And love as you are
the ghost of love,

Forget about nations
They're strong enough
Next generation
They're coming soon enough
Let's do it right now
In our tender love

And don't be afraid
Of the ghost of love
And love as you are
the ghost of love
