

## The Ghost of Love

Simply Red

Escape from reality  
Love is really off  
Forget about mortality  
It's coming soon enough  
Remember her lips  
And tender arms

And don't be afraid  
Of the ghost of love  
And love as you are  
the ghost of love,

Forget about nations  
They're strong enough  
Next generation  
They're coming soon enough  
Let's do it right now  
In our tender love

And don't be afraid  
Of the ghost of love  
And love as you are  
the ghost of love
