The World And You Tonight

Simply Red

Don't rush around
The world will wait for you
And too much time is lost
On all the things we have to do

There's nothing more important baby Right now than you and me So come a little closer darling And turn the lights down low a key

And life could be so wonderful A perfect home and a family When you're lying next to me I'm everything I want to be With the world and you tonight With the world and you tonight

With you my love
The world's a better place
And every day with you
Will hold a treasured memory

Your embrace Could steal me forever And nothing else matters When I hold you in my arms

And life could be so wonderful
A perfect home and a family
'Cos you are everything to me
I'm the lock and you're the key
To the world and me tonight
To the world and me tonight
It's the world and you tonight
You are my world
With the world and me tonight
