

# Call to Arms

Sinbreed

We stand proud unbending  
Troops march in surrounding us  
Obsession in their eyes  
We won't fall, rebellion  
All lined up on the wall  
We're here to die

For a new age  
We stand as one  
And rise  
Hear the call to arms  
See the battle sign  
Together we will ride or die  
This must be the place  
This is our time  
Together we will spark the fire

You can't win, we're legion  
The will to fight day and night  
Spreading the disease  
We won't fall rebellion  
One by one, standing strong  
We're here to die

For a new age  
We stand as one  
And rise  
Hear the call to arms  
See the battle sign  
Together we will ride or die  
This must be the place  
This is our time  
Together we will spark the fire

Hear the call to arms  
See the battle sign  
Together we will ride or die  
This must be the place  
This is our time  
Together we will spark the fire

Hear the call to arms  
See the battle sign  
Together we will ride or die  
This must be the place  
This is our time  
Together we will spark the fire
