

# Shadows

Sinbreed

I'm hiding in the shadows  
Always by your side  
In the dark of the night  
Covering the light  
As time decays I take control  
Bring you to your knees  
Now it's time the end is near  
You know I am here

I lie to your face  
But you must obey

Say do you remember  
The day we first met?  
You've been all on your own  
Frightened to the bone  
I was there to hold your hand  
When no one else was there  
By a thousand tongues I swear  
I am everywhere

I lie to your face  
But you must obey

A brand new black  
A new kind of darkness  
Reach from your mind  
Into your soul  
A shadow falls  
Your life is in danger  
And your whole world  
Out of control  
A brand new black  
My new child of darkness  
Caught in a trap  
With no release  
A shadow falls  
The wings of a demon  
You'll find no cure  
For this disease

I'm hiding in the shadows  
Always by your side  
Drift into the twilight zone  
Lost and all alone  
Fading like a ray of light  
Everything turns black  
I am close you will see  
The pure essence of me

I lie to your face  
But you must obey

A brand new black  
A new kind of darkness  
Reach from your mind  
Into your soul

A shadow falls  
Your life is in danger  
And your whole world  
Out of control  
A brand new black  
My new child of darkness  
Caught in a trap  
With no release  
A shadow falls  
The wings of a demon  
You'll find no cure  
For this disease
