

# No Other Way

Sinead Harnett

Tell me what's on your mind  
Cause I'm not going away tonight  
Take as long as you need  
Let me be your fairy babe  
Whatever you're strongly doubt  
You can turn it around right here

'Cause it won't be no other way  
When you can't find the words to say  
Let your heart go, just let go what you're holding on holding on  
Don't blame down this to me,  
You're only gonna find yourself some peace  
If you let go, really let go what you're holding on holding on

And I'd like to keep these feelings at pace  
But you don't need to be afraid,  
'Cause nothing that you you could ever change  
The way that I feel, the way that feel about you  
Whatever you're strongly doubt  
You can turn it around right here

'Cause it won't be no other way  
When you can't find the words to say  
Let your heart go, just let go what you're holding on holding on  
Don't blame down this to me,  
You're only gonna find yourself some peace  
If you let go, really let go what you're holding on holding on

And I don't mind  
When you get like this sometimes  
Cause I know that you're more  
Than what you're makin' yourself out to be

And it won't be no other way  
When you can't find the words to say  
Let your heart go, just let go what you're holding on holding on  
Don't blame down this to me,  
You're only gonna find yourself some peace  
If you let go, really let go what you're holding on holding on  
(2x)
