

No Other Way

Sinead Harnett

Tell me what's on your mind
Cause I'm not going away tonight
Take as long as you need
Let me be your fairy babe
Whatever you're strongly doubt
You can turn it around right here

'Cause it won't be no other way
When you can't find the words to say
Let your heart go, just let go what you're holding on holding on
n
Don't blame down this to me,
You're only gonna find yourself some peace
If you let go, really let go what you're holding on holding on

And I'd like to keep these feelings at pace
But you don't need to be afraid,
'Cause nothing that you you could ever change
The way that I feel, the way that feel about you
Whatever you're strongly doubt
You can turn it around right here

'Cause it won't be no other way
When you can't find the words to say
Let your heart go, just let go what you're holding on holding on
n
Don't blame down this to me,
You're only gonna find yourself some peace
If you let go, really let go what you're holding on holding on

And I don't mind
When you get like this sometimes
Cause I know that you're more
Than what you're makin' yourself out to be

And it won't be no other way
When you can't find the words to say
Let your heart go, just let go what you're holding on holding on
n
Don't blame down this to me,
You're only gonna find yourself some peace
If you let go, really let go what you're holding on holding on
(2x)
