

# Return to the Fourth World

Sinergy

I've been stopped at the crossroads  
in danger of losing my way  
there is only one answer  
return to the fourth world

I am lost in reality  
I have fallen off destiny's path  
and i stumble upon the key  
to open the fourth world

Beyond the deepest corner of my  
mind  
I unlock the hidden gate  
and find myself back home  
divine hallucinations come to life  
I'm living out my dreams  
right here in paradise

I've been stopped at the crossroads  
in danger of losing my way  
there is only one answer  
return to the fourth world

I have found my reality  
now I'm back on destiny's path  
and I have returned  
I'm here in the fourth world

You are the light that guides me  
through  
this world of darkness and despair  
take me away and set me free  
to where the night sky is my ground

Beyond the deepest corner of my  
mind I unlock the hidden gate  
and find myself back home  
divine hallucinations come to life  
I'm living out my dreams  
right here in paradise

I levitate back to the world I know  
where delirium counts for sanity  
and I've been away for far too long  
fourth world I am here to stay

Beyond the hidden corner of my mind  
I unlock the hidden gate  
and find myself back home  
divine hallucinations come to life  
I'm living out my dreams  
right here in paradise
