

## Suicide by My Side

Sinergy

Living everyday through this nightmare no signs of waking up  
Surrounded by my fear and frustration paralysed here I stand

So I surrender now, and give up on myself  
Been sinking for so long, I'm one too deep now  
How much more can I bear? Seems no one even cares  
I'm drown in a sea of desperation

Suicide the comfort that I crave  
Kill me now and send me to my grave  
Suicide you're listening to me  
Let me die and finally be free  
Suicide salvation from my pain  
My demise humanity to blame  
Suicide my life is in your hands  
Suicide stay by my side

I've tried over and over again, still you see, I can't hang on  
Hopelessly I lie and wait for redemption, as I slowly drift away

Drink of the poison now and take my final bow  
Don't know what lies ahead I'll take that chance though  
For all that I've been through don't know what else to do  
(I kiss my life goodbye so hear my last words...)

Suicide the comfort that I crave  
Kill me now and send me to my grave  
Suicide you're listening to me  
Let me die and finally be free  
Suicide salvation from my pain  
My demise humanity to blame  
Suicide my life is in your hands  
Suicide stay by my side

Suicide, be my guide, embrace me now, so I can die

Suicide the comfort that I crave  
Kill me now and send me to my grave  
Suicide you're listening to me  
Let me die and finally be free  
Suicide salvation from my pain  
My demise humanity to blame  
Suicide my life is in your hands  
Suicide stay by my side
