

# The Science of Prophecy

Sinister

A profession  
comes with darkness  
A profession  
to decrease the mind

Lower life-forms  
A second nature  
Delivered to  
erase mankind

The science  
exercised by the prophet  
The prophet  
which will be condemned

Dark landscapes  
and total destruction  
Development of the worst  
that's his intent

Maintain cruelty,  
that's the science  
Behind the torture-skills,  
and darkness forever

"Science of the prophecy! Prophecy!  
Science of the prophecy!"
