

Unseen Darkness

Sinister

From the breath of Lucifer I'm born
Hell's creation, death in the purest form
Lord of demise, clandestine demigod
Scornful saint, the curse of humanity
Unseen darkness
Unseen darkness

I ride the blackened night of blasphemy
To devour souls perpetually
I burnt witches at the stake alive
And pulled the switch of the guillotine

I made the world burn in black
As lava made them scald till death
I was the voice of the son of Sam
And the knife in the rippers hand

I'm Blitzkrieg, I'm war
Consume lives for ever more
From the breath of Lucifer I'm born
Hell's creation, death in the purest form
Lord of demise, clandestine demigod
Scornful saint, the curse of humanity

I'm the pain and suffering of mankind
I'm death itself the horror of life
Unseen darkness
Unseen darkness

I ride the blackened night of blasphemy
To devour souls perpetually
I burnt witches at the stake alive
And pulled the switch of the guillotine

I made the world burn in black
As lava made them scald till death
I was the voice of the son of Sam
And the knife in the rippers hand
I'm blitzkrieg, I'm war
Consume lives for ever more

Unseen darkness
Unseen Darkness

I'm the sword of Kingu, the slaying death
I'm homicidal destructive rage
I'm the pain and suffering of mankind
I'm death itself the horror of life

Unseen darkness
Unseen darkness

Deadly fatal disease starvation of the weak
Catastrophes, eternal world of doom
Painful deadly screams hail me into bliss
Incineration, combustion of life

Rejoiced inside me
Violated, mutilated, cauterised
Raped, choked, murdered, sodomised
Outrage, stabbed, decapitated

I'm riding on the air and roaring fire
I'm possessing fate, thou world I devour
Stir in the eyes of death
See the void of the blackened soil

Rigor mortis, I put to death,
