## 10 2 Death

Move too fast Think too slow Talk too easy Told you so Here I am Behind the bars Ain't too pretty Collecting scars Why me? Can't see They wronged the rights out for me No fight goodnight 10 to death and I'm ready to die 10 to death and I'm ready to die All it took was just one little look Took the wrong road To the corner where she stood Got my jackknife no time to mess around Don't take no fortune teller To predict I'm going down Predict I'm going down 10 to death and I'm ready to die 10 to death and I'm ready to die I feel it creepin in my veins When I stop movin my heart will do the same Ain't been to heaven, that's as sure as hell What a way to go, nobody else can tell Nobody else can tell 10 to death and I'm ready to die 10 to death and I'm ready to die
