

## Crash & Burn

Sinner

Take me where the shiver grows  
I see the destination where the holy water flows  
A fatal situation and the sun will never shine  
I put my life for you out on the line  
Lightning strikes twice and children cry  
Fallen from the sky to say goodbye  
Next your heart will burn  
At each and every turn  
And you live and better learn  
It's crash & burn  
I am at the point of no return  
I dive into the river where the holy water burns  
My heart is bleeding now, I've got to find a way  
I'm dealing with the Devil until the end of the day  
Lightning strikes twice and children cry  
Fallen from the sky to say goodbye  
Next your heart will burn  
At each and every turn  
And you live and better learn  
It's crash & burn  
As radiation hurts  
Survive the red alert  
And you live and better learn  
It's crash & burn  
Next your heart will burn  
At each and every turn  
And you live and better learn  
It's crash & burn  
As radiation hurts  
Survive the red alert  
And you live and better learn  
It's crash & burn  
It's crash & burn  
Crash & burn
