

Fast Decision

Sinner

Sinner

Bonus track

Walking down the main street tonight

I'm all alone, the opposition is sight

My blood runs cold, my heart breaks up

And my scream for vengeance ... will never stop

Oh yeah

Unrelented to go on

With no chance to hold on

The ultimatum is over

I know it's over

[Chorus:]

A fast decision - Knock him down

A fast decision - I smash his brow

A fast decision - that won't suppress

A fast decision - The torture

His position threw me off

A man of hell moved through the other one

They tell me...

A mist is risin'

And with a trick of the wind

Oh yeah

Few hours later

Change in the weather

The place risin' like evil

Yeah, inside of him

[Chorus]

A fast decision [4]
